

Student Competitions

Studentcompetitions.com

Studentcompetitions.com is a platform for students to compete, show their skills and get awarded. Information on local, national and international competitions can be found on their website.

KPMG International Case Competition (KICC)

Discover the fast paced world of casework and test your ability to develop innovative, real-world business solutions through this challenging and exciting learning experience.

EY Young Tax Professional of the Year (YTPY)

In this two stage competition you will need to demonstrate your creative and analytical strength — as well as the practical skills that will mark you out as one of the best.

NI Autonomous Robotics Competition (NI ARC)

This competition is open to students who are interested in building an autonomous robot and compete against teams from top universities across Australia and New Zealand in an annual Live Autonomous Robotics Competition.

Australian University Games

Since its inception in 1993, the Australian University Games (AUG) has grown to be Australia's largest annual multi-sport event. Held each September/October, the Games is renowned for providing a friendly but competitive environment for Australian university athletes and is the flagship event on the national university sporting calendar.

Microsoft Protege

Students who are interested in marketing can get a team together and showcase the quality of their marketing techniques.

AMP University Challenge

A competition that combines technical theory and presentation skills. Experience first-hand what it's like to be a financial planner.
