Curtin University is committed to producing professionals that are capable of being effective in the workplace immediately upon graduation. We are widely recognised for the practical and applied nature of our courses and our extensive research projects. This approach, paired with industry engagement, equips graduates with essential skills and a focus on solving real world problems.

Our high quality curriculum and commitment to industry partnerships ensures the delivery of world-class graduates across a diverse range of disciplines:

**CURTIN BUSINESS SCHOOL**

Curtin Business School (CBS) is one of the most comprehensive business schools in Australia. Under the Bachelor of Commerce undergraduate degree, major study areas include: Finance, Economics, Accounting, Management, Information Systems & Technology, Advertising, Marketing and Public Relations. In addition to these streams, the Curtin Law School (CLS), a division within CBS, develops practically focused graduates in the areas of Law, Business Law and Taxation.

**HUMANITIES**

Curtin Humanities produces graduates who are industry ready and many of our programs are backed by professional accreditation. We average over 2,000 graduates annually across the areas of Anthropology & History, Architecture / Interior Architecture, Art, Asian Culture & Languages, Construction Management, Design, Education, Film & Television, Information Studies, International & Security Studies, Internet Communications, Journalism, Mass Communication, Project Management, Urban / Regional Planning, Writing and Performance & Culture.

**HEALTH SCIENCES**

Health Sciences at Curtin educates more health professionals than any other WA tertiary institution. We pride ourselves on producing high quality, industry ready graduates across a vast array of disciplines including Medicine, Nursing & Midwifery, Biomedical Sciences, Occupational Therapy, Social Work, Physiotherapy & Exercise Science, Psychology, Speech Pathology, Pharmacy and Public Health.
Your link to Curtin

**Science & Engineering**

The areas of education and research embraced by our Science & Engineering division represent key areas of the State’s economy. These include Science (Chemistry, Physics and Mathematics), Chemical & Petroleum Engineering, Civil & Mechanical Engineering, Electrical Engineering & Computing, Mining Engineering and Geology. In addition to our core facilities, Curtin University’s Western Australian School of Mines is dedicated to providing some of the World’s finest mining and minerals education and facilities.

**Centre for Aboriginal Studies**

In addition to supporting Aboriginal students completing general Curtin courses, the Centre for Aboriginal Studies also offers qualifications for both Indigenous and non-Indigenous students within the areas of Education, Indigenous Australian Cultural Studies, Indigenous Community Health Program and Community Management and Development Programs.

Curtin University’s ongoing partnerships with industry guarantees the quality of tomorrow’s workforce. We are focused on the facilitation of productive relationships with employers and understand that your business and recruitment needs are unique - our staff are dedicated to developing engagement strategies to help meet your objectives.
Developing genuine connections with your target audience can be challenging. We provide a diverse range of engagement solutions to support the development of your presence at Curtin (both on-campus and online). The following approaches can be customised to enable targeted and personal interactions:

- Unique online profiles
- Online Q&As and discussion boards
- Multi-channel social media strategies
- Online distribution of marketing material via direct email to students through UniHub

Hosting an event provides an excellent opportunity to share your business culture and engage with potential future employees. We can provide advice and support specific to your business, to maximise the success of your event (both on and off-campus) - consider an information session, workshop or networking event.

CCEL provides support for a diverse range of recruitment needs, from work experience placements to graduate opportunities. We can assist in giving employers an edge by providing:

- Access to high quality applicants via free UniHub advertising. UniHub is exclusively accessible by current Curtin students and staff, with Curtin Alumni having life long access.
- Advice on the best approach to meet your organisation’s needs. We can provide guidance to ensure compliance with the Fair Work Act for unpaid work experience opportunities that are not for course credit. (Insurance cover is available - terms and conditions apply).

CCEL hosts some of the largest Careers Fairs in Australia. Participating in a Careers Fair provides the opportunity to strengthen and expand your organisation’s profile whilst meeting a diverse range of students.

We also utilise online channels in conjunction with our on-campus events to ensure you’re able to connect with as many Curtin students as possible, regardless of mode or location of study. Integrated programs via www.careersfortomorrow.com.au and social media platforms create dynamic online campaigns and increased exposure.

PLEASE NOTE, TIMING CAN IMPACT YOUR EXPOSURE, RESPONSE & RESULTS. Please consult our academic calendar for semester dates.

POSTGRADUATE

More than just undergraduate degrees... Curtin offers Western Australia’s largest range of postgraduate degrees which equip our students with specialist knowledge and skills. Curtin is also ranked as a leading research institution and offers higher degrees by research at master and doctoral level.

BENTLEY +

We are a multi campus university: From the WA School of Mines in Kalgoorlie to Margaret River. In fact, we can put you in touch with Curtin students in every corner of Australia. Our ability to deliver industry engagement and support services virtually also means you have access to an additional 10,000+ students each year who are studying via distance education.

RECRUIT FOR YOUR GLOBAL NEEDS

Curtin courses are designed to encourage all students to develop an international perspective. We have international campuses in Sarawak (Malaysia), Singapore and soon Dubai UAE, as well as students studying in all continents across the world. Through our programs, international campuses, virtual delivery of services and the reach of our Alumni we can provide a breadth and depth of global talent.
